WIDE

SUPERSIZE SLABS

Wide è il nuovo programma di lastre ceramiche a 7 mm di spessore prodotte da ABK con tecnologia CONTINUA+.

Lo spessore ridotto e le grandi dimensioni permettono il rivestimento di ampi spazi residenziali e commerciali, compresi i volumi architettonici creati per la personalizzazione e le esigenze specifiche dei vari ambienti.

Wide is ABK's new collection of 7 mm thick ceramic slabs produced using CONTINUA+ technology.

Thanks to their small thickness and large size, these slabs are ideal for use in large residential and commercial spaces, including architectural volumes designed for custom applications.

CROSSROAD

CHALK

WOOD

BRICK

CROSSROAD, incontro fra diverse sensazioni materiche che si incrociano fra loro in un raffinato gioco di corrispondenze cromatiche.

Il colore, sia tono su tono che utilizzato a contrasto, è un elemento chiave del progetto CROSSROAD, un'unica collezione ceramica che racchiude tre diverse ispirazioni da mixare seguendo il proprio stile.

CHALK racconta la materia tridimensionale degli intonaci in un vasto programma di formati, WOOD traduce lo spirito naturale del legno in nuove colorazioni di tendenza, mentre BRICK impreziosisce gli spazi con un elegante effetto maiolicato, dando vita a molteplici soluzioni di posa.

CROSSROAD, an encounter between different material sensations that come together in an elegant play of colours.

The use of coordinating and contrasting colours is key in the CROSSROAD project, a unique ceramic collection featuring three different effects that can be combined according to one's own individual style.

CHALK is inspired by the three-dimensional effect of plaster in a wide range of sizes, WOOD interprets the natural spirit of timber in new trendy colours, and BRICK enhances spaces with an elegant majolica effect to allow for many different installation solutions.

BRICK

CROSSROAD
WOOD

CROSSROAD

CHALK

CHALK si ispira alla matericità e alle piccole imperfezioni tipiche degli intonaci, la grafica del prodotto riproduce un gioco di luci e ombre che simula perfettamente la tridimensionalità del prodotto, pur mantenendo, al tatto, la morbidezza della superficie ceramica.

CHALK is inspired by the material effect and small imperfections of plaster. The surface design creates a play of light and shadow that simulates the material's three-dimensionality while maintaining the soft touch typical of ceramic surfaces.

CROSSROAD

WOOD

WOOD esplora le tendenze "parquet" in chiave minimal-chic, la gamma include sia tonalità naturali che colori inediti, studiati in base alle esigenze dell'architettura contemporanea.

WOOD offers a minimal-chic interpretation of "parquet" trends. The palette includes both natural tones and fresh new colours designed to meet the needs of contemporary architecture.

ABK in collaborazione con OIKOS suggerisce una selezione di colori murali per valorizzare al massimo gli spazi CROSSROAD. Per un risultato più omogeneo vengono proposte tonalità simili alle superfici ceramiche scelte, per un look più emozionale tinte a contrasto, in linea con le principali tendenze colore del momento. Per maggiori informazioni sui prodotti OIKOS INTERIOR consultare il sito www.oikos-group.it.

ABK has teamed up with OIKOS to offer a selection of wall colors recommended for enhancing the aesthetics of CROSSROAD spaces. To create a uniform, harmonious look, similar colors to the ceramic surfaces should be chosen. For a more striking visual effect, contrasting shades based on current color trends can be used. For further information on OIKOS INTERIOR products, visit the website www.oikos-group.it.

CREATIVITÀ A COLORI COLOR CREATIVITY

L'accurata selezione delle tonalità crossroad brick, sia in tono che a contrasto con i colori chalk e wood, permette di dare vita a molteplici e sorprendenti possibilità compositive.

The meticulously selected palette of crossroad brick colors includes shades that both coordinate and contrast with the chalk and wood tones, allowing plenty of opportunity for striking and original compositions.

CERAMIC R-EVOLUTION

Il progetto WIDE ABK parte dalla rivoluzionaria tecnologia produttiva CONTINUA+, che permette di produrre lastre in gres porcellanato robuste e leggere allo stesso tempo, grazie allo spessore ridotto di 7mm, fino alla dimensione record di 160x320 cm.

Il nuovo sistema di pressatura prevede la compattazione a secco delle materie prime e consente di ottenere superfici particolarmente apprezzabili sia per la qualità estetica che per le performance tecniche.

ABK'S WIDE collection consists of tough yet lightweight porcelain slabs with a thickness of just 7 mm and a record size of 160x320 cm produced using the revolutionary CONTINUA+ technology. The new pressing system involves dry compaction of raw materials and is able to produce surfaces that combine excellent aesthetic quality with outstanding technical performance.

WIDE & STRONG

WIDE è perfettamente idoneo sia per il rivestimento che per la pavimentazione, in ambito residenziale e commerciale. Lo spessore 7 mm consente di mantenere un'ottima resistenza al carico di rottura reale.

WIDE is ideal as both a floor and wall covering in residential and commercial projects. The 7 mm thickness enables it to maintain excellent breaking strength in real situations.

LITE GOES WIDE

Lo spessore di 7 mm consente di ridurre il peso per mq con interessanti vantaggi in termini di maneggevolezza e movimentazione.

The 7 mm thickness results in a reduced weight per square metre, bringing significant advantages in terms of ease of working and handling.

WIDE IS LEVELING

La combinazione fra impasto ad elevata plasticità, spessore e grande dimensione, dona particolare elasticità al prodotto, per ottenere risultati di posa sempre impeccabili.

The combination of a body with high plasticity, thickness and dimensions makes for a highly elastic product that delivers consistently flawless results.

EASY AS WIDE

La formulazione dell'impasto, unita alla compattazione a secco e alla cottura in forni di nuova concezione, genera un gres particolarmente facile da tagliare e lavorare.

The chemical formulation of the body combined with the raw material dry compaction process produces a porcelain slab that is easy to cut and work with.

WIDE MEANS GREEN

L'impasto contiene il 40% minimo di materie prime di qualità recuperate da altri processi produttivi, per questo i prodotti WIDE possono essere accreditati all'interno del sistema internazionale LEED.

As the body contains a minimum of 40% high-quality raw materials recycled from other production processes, WIDE collection products qualify for LEED international certification.

CARICO DI ROTTURA BREAKING STRENGTH

Abk 9 mm = 1.662 newton
Abk 7 mm = 1.587 newton
Altri 6 mm = 1.166 newton

PESO WEIGHT

Abk 9 mm = 19,5 Kg x mq
Abk 7 mm = 17,5 Kg x mq

indicatore di flessibilità flexibility index	deflessione massima sotto carico di 350 N maximum deflection under load of 350 N	lato/lenght 2400 mm	> 50 mm
		lato/lenght 3200 mm	> 100 mm

NEW DIMENSIONS

Uno degli obiettivi del progetto WIDE è quello di fornire un materiale ceramico tecnologicamente avanzato facilmente utilizzabile in contesti anche molto diversi, per dimensione e per destinazione d'uso. WIDE è un vero e proprio programma di formati, tutti rettificati, pensati per coprire a 360° le esigenze legate alla progettazione, a partire dagli spazi residenziali, fino alle grandi opere in ambito pubblico e commerciale.

One of the aims of the WIDE project is to supply a hi-tech ceramic material that is easy to use in very different sizes and applications. WIDE comes in a large selection of sizes, all rectified, ideal for uses ranging from residential through to large-scale works in public and commercial spaces.

EVERYWHERE YOU LIKE

Tenendo conto delle principali qualità del materiale, tra cui la robustezza, la resistenza agli sbalzi termici, oltre allo spessore contenuto e alla facilità di lavorazione, le grandi lastre WIDE ampliano la destinazione d'uso del gres porcellanato. Sempre meno fughe e sempre più spazio alla creatività di progettisti e interior designers, che grazie ai prodotti WIDE possono apprezzare la versatilità di una ceramica senza più confini.

Taking account of the material's key qualities, including strength, thermal shock resistance, low thickness and ease of working, the WIDE large-size slabs extend the fields of use of porcelain. The WIDE collection has fewer joints while giving enormous creative freedom to architects and interior designers, who appreciate the versatility of this ceramic surface without limits.

AUTO-LEVELING™

 **Facile installazione - Easy laying**

7 mm **WIDE**
SUPERSIZE SLABS

I formati 20x120 cm e 26x200 cm, a spessore 7mm, sono ricavati da lastre ceramiche WIDE prodotte con tecnologia CONTINUA+, un rivoluzionario sistema di pressatura che prevede la compattazione a secco delle materie prime e consente di ottenere superfici particolarmente apprezzabili sia per la qualità estetica che per le performance tecniche. Questa tecnologia utilizza impasti a base di materie prime per loro natura altamente stabili, resistenti e ad elevata plasticità, che unite alle proporzioni della lastra ceramica conferiscono a questi prodotti qualità uniche. La dimensione dei listoni e lo spessore ridotto di 7 mm, accentuano l'elasticità del materiale ceramico, che in questo modo aderisce perfettamente al massetto. Una volta posata, la piastrella si auto-livella, mantenendo una perfetta planarità.

The 20x120 cm and 26x200 cm plank sizes with a thickness of 7 mm are obtained from WIDE ceramic slabs produced using CONTINUA+ technology, a revolutionary pressing system that adopts dry compaction of raw materials to create surfaces with exceptional aesthetic and technical qualities. These of bodies made from highly stable, tough and plastic raw materials coupled with the proportions of the ceramic slabs give these products unique characteristics. The large dimensions and reduced 7 mm thickness make for a high degree of elasticity, enabling the planks to bond perfectly to the substrate. Once installed, they level automatically and maintain perfect flatness.

Lastre prodotte con materie prime ad elevata plasticità, resistenti ma flessibili.

Ceramic slabs manufactured with highly plastic raw materials, strong and flexible at the same time.

Appoggiate su qualsiasi superficie, anche non perfettamente planare, le lastre si auto-livellano.

Laid on the screed they self-level, even if the surface is not perfectly flat.

50% OK

Il prodotto auto-leveling agevola la posa tradizionale, si monta senza distanziali livellanti, seguendo qualsiasi schema di posa.

Auto-leveling tiles help the traditional fixing, every installation pattern can be achieved, without leveling spacers.
