“Architecture is not much more than a tree. Trees grow in line with its surroundings. But some architects build without any consideration for the environment, creating a particular order. I do not, because I think we do the job only when it settled the environment”

“La arquitectura no es mucho más que un árbol. Los árboles crecen en concordancia con su entorno. Pero algunos arquitectos construyen sin considerar su entorno, creando un orden particular. Yo no lo hago, porque creo que sólo hacemos bien el trabajo cuando lo acomodamos al entorno”

Toyo Ito

Anything created by human beings is already in the great book of nature.

Todo lo creado por el hombre ya existía en el gran libro de la naturaleza.
