SHAPE, LANDSCAPE, ARCHITECTURE

architectural LANDSCAPE

The simplicity of stone-effect surfaces and the sense of authenticity of those who live in a space are very closely linked· interior designers thoroughly understand this relationship. Kone creates new design scenarios in which interior and exterior urban architectures are in tune with living materials.

L'ESSENZIALITÀ COMPATTA DI SUPERFICI EFFETTO PIETRA E IL SENSO DI AUTENTICITÀ DI CHI VIVE UNO SPAZIO SONO MOLTO LEGATI: CHI PROGETTA GLI AMBIENTI CONOSCE A FONDO QUESTA RELAZIONE. KONE CREA NUOVI SCENARI PROGETTUALI IN CUI LE ARCHITETTURE URBANE PER INTERNI ED ESTERNI NASCONO GIÀ IN SINTONIA CON LA MATERIA VIVA.

La sobriété compacte des surfaces effet pierre et le sens d'authenticité de l'espace sont extrêmement liés : ceux qui conçoivent l'espace connaissent bien cette liaison. Kone crée de nouveaux scénarios où les architectures urbaines d'intérieur et d'extérieur naissent déjà en accord avec la matière brute.

Die kompakte Schlichtheit von Oberflächen mit Natursteinoptik und der Sinn für Authentizität der Bewohner eines Raums hängen eng miteinander zusammen: Raumplaner kennen diese Beziehung gut. Kone eröffnet neue Projektlandschaften, in denen urbane Innen- und Außenbereiche schon von vorneherein mit der lebendigen Materie harmonieren.

La esencialidad compacta de superficies efecto piedra y el sentido de autenticidad de quienes comparten un espacio están muy ligados: quien proyecta los ambientes conoce muy bien esta relación. Kone crea nuevos escenarios decorativos en los que las arquitecturas urbanas para interiores y exteriores nacen ya en sintonía con la materia viva.

Строгая лаконичность поверхностей под камень и ощущение аутентичности тесно взаимосвязаны, и тем, кто проектирует пространства, эта связь хорошо известна. Коллекция Kone предлагает новые дизайнерские решения, в которых внутренние и наружные пространства естественно гармонируют с фактурой природного материала.

The porcelain tile project interprets the material in an innovative way. The look of limestone is embodied in two contrasting and complementary identities: one is natural and simple, the other glossy and more spectacular.

IL PROGETTO IN GRES PORCELLANATO INTERPRETA LA MATERIA IN MODO INNOVATIVO. IL RICHIAMO ALLE PIETRE LIMESTONE SI CONCRETIZZA IN DUE SUPERFICI DI IDENTITÀ CONTRAPPOSTA E COMPLEMENTARE: UNA NATURALE ED ESSENZIALE, L'ALTRA LUCIDA, PIÙ SCENOGRAFICA.

Le projet en grès cérame interprète la matière de manière innovante. Le rappel aux pierres Limestone se concrétise dans deux surfaces d'identité distincte et complémentaire : une naturelle et sobre, l'autre brillante, plus scénographique.

Das Feinsteinzeugprojekt interpretiert die Materie auf innovative Weise. Der Verweis auf den Kalkstein zeigt sich in zwei Oberflächen von gegensätzlicher und sich ergänzender Identität: eine natürlich-schlichte, die andere glänzend, effektvoller.

GREEN PROJECT

The LEED BD&C v 4 standard (LEED Building Design & Construction), effective since 31 October 2016, is a rating system dedicated to the development of "green" buildings. Developed by the US Green Building Council and internationally recognised, it outlines the necessary requirements to build eco-compatible projects, capable of functioning in a sustainable and autonomous way from an energy point of view, as well as having a low environmental impact throughout their entire life cycle. This system is based on the allocation of credits for each single requirement: the total amount of credits defines the certification level obtained. Ceramic tiles can also contribute to the achievement of LEED points. Ceramiche Atlas Concorde is a member of the US Green Building Council.

Lo standard LEED BD&C v 4 (LEED Building Design & Construction), entrato in vigore il 31 Ottobre 2016, è un sistema di rating per lo sviluppo di edifici "verdi". Elaborato dall'US Green Building Council e riconosciuto a livello internazionale, indica i requisiti per costruire edifici eco-compatibili, capaci di funzionare in maniera sostenibile ed autosufficiente a livello energetico e di avere un basso impatto sull'ambiente durante tutto il loro ciclo di vita. Il sistema si basa sull'attribuzione di crediti per ciascuno dei requisiti: dalla somma dei crediti deriva il livello di certificazione ottenuto. Anche le piastrelle ceramiche possono contribuire al raggiungimento dei crediti LEED. Ceramiche Atlas Concorde è membro dell'US Green Building Council.

PORCELAIN TILES COLLECTION

Outdoor products that mitigate the "heat island" phenomenon, thereby reducing effects on the microclimate, the human habitat and wildlife can contribute to earning a LEED credit.

HEAT ISLAND EFFECT. Possono contribuire al raggiungimento di un credito Leed i prodotti che, utilizzati in esterno, mitigano il fenomeno dell' "isola di calore" riducendo gli effetti sul microclima, sull'habitat umano e sulla fauna selvatica.

BUILDING PRODUCT DISCLOSURE AND OPTIMIZATION. SOURCING OF RAW MATERIALS (MR) "RECYCLED CONTENT".

For several porcelain stoneware items and all white-body wall tiles, Atlas Concorde has a certificate issued by a third party that certifies the percentage of recycled "pre-consumer" material and that can therefore help earn a LEED credit.

Per diversi articoli in grès porcellanato e tutti i rivestimenti in pasta bianca, Atlas Concorde dispone di una certificazione rilasciata da ente terzo che attesta la percentuale di materiale riciclato "pre-consumer" che può contribuire al raggiungimento di un credito LEED.

MADE IN ITALY. MADE TO EXCEL.

The Ceramics of Italy logo is an exclusive identification on ceramic products which have effectively been made in Italy by companies that are a part of the Confindustria Ceramica and who adhered to its Ethical Code. This Code, promoted and created by Confindustria Ceramica, commits all companies to communicate, clearly and with transparency, the origin of their products.

Il marchio Ceramics of Italy contrassegna esclusivamente i prodotti ceramici effettivamente realizzati in Italia da un'azienda associata a Confindustria Ceramica che ha sottoscritto il Codice Etico. Il Codice, redatto dalla stessa Confindustria Ceramica, impegna a comunicare con chiarezza l'origine dei prodotti.
