WALL & FLOOR

Roma è un progetto ceramico completo di pavimenti e rivestimenti per circondare di bellezza i vostri spazi.

Roma is a complete ceramic programme of floor and wall tiles to encase your rooms with a sensation of beauty.

Roma représente un projet céramique complet composé de sols et de murs qui saura valoriser vos espaces de vie. / Roma ein vollständiges Keramikprojekt für Fußböden und Verkleidungen der Ihren Raum mit Schönheit umgibt. / Roma es un proyecto cerámico completo de pavimentos y revestimientos para inundar vuestros espacios de belleza. / Roma — это универсальный проект напольной и настенной плитки, привносящей в ваш дом истинную красоту.

MARMO E PIETRA MARBLE & STONE

Roma esprime con fascino contemporaneo la bellezza del marmo e della pietra. Sei colori interpretano con grandi lastre una nuova estetica progettuale, senza limiti, senza tempo.

Roma lends contemporary appeal to the beauty of marble and stone. Six colours and large slabs for a new aesthetic project that is timeless and knows no limits.

MARBRE ET PIERRE. Roma exprime la beauté du marbre et de la pierre avec un charme contemporain. Sur de grandes plaques, six couleurs interprètent une nouvelle esthétique conceptuelle, sans limite et sans contrainte. / **MARMOR UND STEIN.** Roma bringt die Schönheit des Marmors und des Steins mit zeitgemäßen Charme zum Ausdruck. Sechs Farben interpretieren mit großen Platten eine neue Planungsästhetik, grenzenlos und zeitlos. / **MÁRMOL Y PIEDRA.** Roma refleja con un moderno atractivo la belleza del mármol y de la piedra. Seis colores interpretan junto con grandes losas una nueva estética proyectual sin límites ni tiempo. / **Мрамор и КАМЕНЬ.** Roma передает в современном ключе красоту мрамора и камня. В шести тональностях крупноформатной плитки выражена новая дизайнерская эстетика: без границ и вне времени.

PAVIMENTI MATT E LUX MATT & LUX FLOOR

*Due superfici, due sensazioni:
Matt per un effetto sofisticato
e contemporaneo, Lux per un
risultato morbido, leggermente
cerato.*

*Two finishes, two sensations: Matt
for a sophisticated and contem-
porary effect, Lux for a soft and
lightly waxed effect.*

SOLS MATT ET LUX. Deux surfaces,
deux sensations : Matt pour un effet
sophistiqué et contemporain, Lux pour
un aspect doux, légèrement ciré. /
FUSSBÖDEN MATT UND LUX. Zwei ver-
schiedene Oberflächen, zwei ver-
schiedene Empfindungen: Matt für ei-
nen anspruchsvollen und zeitgemäßen
Effekt, Lux für ein sanftes Ergebnis
welches leicht eingewachst wirkt. /
PAVIMENTOS MATT Y LUX. Dos su-
perficies, dos sensaciones: Matt para
un efecto sofisticado y moderno; Lux
para un resultado suave, ligeramente
encerado. / НАПОЛЬНАЯ ПЛИТКА
МАТТ И ЛУКС. Две поверхности,
два ощущения: Matt - изысканный
современный эффект, Lux - эффект
мягкости и легкого восшения.

Informazioni utili

Useful information. / Informations utiles. / Nützliche Informationen. / Información útil. / Полезная информация.

FAP È MADE IN ITALY

Tutte le piastrelle Fap ceramiche sono prodotte in Italia. Chi acquista ceramiche Fap ha la sicurezza che esse siano prodotte con tecnologie che rispettano l'ambiente, utilizzando materie prime eccellenti e sicure, garantendo le migliori condizioni di lavoro possibile.

Ceramics of Italy

FAP IS MADE IN ITALY

All Fap ceramic tiles are produced in Italy. Anyone purchasing Fap ceramics can be sure that they are produced using technologies that respect the environment, using safe, excellent raw materials, guaranteeing the best possible working conditions.

Fap ceramiche è membro dell'U.S. Green Building Council, organizzazione USA volta a favorire e accelerare la diffusione di una cultura dell'edilizia sostenibile.

Fap ceramiche is a member of the U.S. Green Building Council, the US organisation that seeks to promote and spread a sustainable building culture.

Fap ceramiche ha realizzato la ENVIRONMENTAL PRODUCT DECLARATION (EPD), certificata da un organismo terzo indipendente. L'EPD rappresenta una sorta di carta di identità dei prodotti, ne descrive l'impatto sull'ambiente dalla fase di estrazione delle materie prime alla commercializzazione e durante l'intero ciclo di vita fino allo smaltimento.

Fap ceramiche has created the ENVIRONMENTAL PRODUCT DECLARATION (EPD), which has been certified by an independent body. The EPD is a sort of identity card for products, which describes their impact on the environment, from the extraction of the raw materials through to sale and on through their entire life cycle until disposal.

Fap ceramiche è tra le prime aziende del settore ceramico ad aver realizzato la PRODUCT ENVIRONMENTAL FOOTPRINT (PEF), strumento di dichiarazione ambientale promosso dalla UE. La PEF di Fap ceramiche è certificata da un ente terzo indipendente.

Fap ceramiche is one of the first companies in the ceramic sector to have created the PRODUCT ENVIRONMENTAL FOOTPRINT (PEF), an environmental declaration tool promoted by the EU. Fap ceramiche's PEF is certified by an independent body.

L'organismo indipendente DNV-GL ha certificato che tutte le piastrelle in pasta bianca di Fap e gli articoli Antracite, Caffè Cotto e Malta in porcellanato della collezione Terra, contengono più del 20% di materiale riciclato pre-consumo.

The independent body DNV-GL has certified that all Fap white-body tiles, and the articles Antracite, Caffè Cotto and Malta in porcelain stoneware from the Terra collection, contain more than 20% pre-consumer recycled material.

FAP EST MADE IN ITALY

Toute la production de carreaux Fap céramique est réalisée en Italie. Acheter un produit Fap c'est avoir la certitude d'une technologie qui respecte l'environnement, de matières premières nobles et sûres et d'une attention particulière aux conditions de travail.

Fap ceramiche adhère au Code d'Ethique de Confindustria Ceramica qui impose aux entreprises de communiquer clairement l'origine de ses produits. Le label Ceramics of Italy ne peut être utilisé que pour des carreaux céramique intégralement fabriqués en Italie.

Fap ceramiche est membre de l'U.S. Green Building Council, organisation américaine visant à favoriser et accélérer la diffusion d'une culture de la construction durable.

Fap ceramiche a réalisé l'ENVIRONMENTAL PRODUCT DECLARATION (EPD) qui a été certifiée par un organisme indépendant. L'EPD représente une sorte de carte d'identité des produits et en décrit l'impact sur l'environnement depuis la phase d'extraction des matières premières à la commercialisation, et cela pendant la totalité du cycle de durée de vie jusqu'à l'élimination.

Fap ceramiche figure parmi les premières entreprises du secteur céramique à avoir réalisé la PRODUCT ENVIRONMENTAL FOOTPRINT (PEF), instrument de déclaration environnementale promu par l'UE. La PEF de Fap ceramiche est certifiée par un organisme tiers indépendant.

L'organisme indépendant DNV-GL a certifié que tous les carreaux en pâte blanche de Fap et les articles Antracite, Caffè Cotto et Malta en grès cérame de la collection Terra, contiennent plus de 20% de matériau recyclé pré-consommateur.

FAP IST IN ITALIEN HERGESTELLT

Alle Fliesen von Fap ceramiche werden in Italien erzeugt. Durch den Kauf von Keramikprodukten von Fap erhält man die Sicherheit, dass sie mit umweltfreundlichen Technologien unter Einsatz von ausgezeichneten, sicheren Rohstoffen produziert wurden, wobei die bestmöglichen Arbeitsbedingungen gewährleistet werden.

Fap ceramiche hält sich an den Ehrenkodex von Confindustria Ceramica, der die Firmen verpflichtet, den Ursprung der eigenen Produkte klar mitzuteilen. Das Markenzeichen Ceramics of Italy darf ausschließlich für die Kennzeichnung von in Italien erzeugten Keramikprodukten verwendet werden.

Fap ceramiche ist Mitglied des U.S. Green Building Council, eine gemeinnützige Organisation mit Sitz in den USA, welche sich für nachhaltiges Bauen einsetzt und ein entsprechendes Bewusstsein schaffen will.

Fap ceramiche hat die ENVIRONMENTAL PRODUCT DECLARATION (EPD) erhalten, diese Umweltproduktdeklaration wurde von einer unabhängigen Zertifizierungsstelle erstellt. Die EPD ist eine Art Ausweis für die Produkte und beschreibt die Auswirkungen auf die Umwelt eines Produkts von der Gewinnung der Rohstoffe für die Herstellung und der Vermarktung über den gesamten Lebenszyklus bis hin zur Entsorgung.

Fap ceramiche gehört zu den ersten Unternehmen in der Keramikbranche, die eine Bewertung nach dem PRODUCT ENVIRONMENTAL FOOTPRINT (PEF) erhalten haben, der Umweltfußabdruck von Produkten ist eine Umwelterklärung der EU. Die PEF von Fap ceramiche wurde von einer unabhängigen Stelle zertifiziert.

Die unabhängige Stelle DNV-GL hat zertifiziert, dass alle weißscherbigen Fliesen von Fap sowie die Artikel Antracite, Caffè Cotto und Malta aus Feinsteinzeug der Kollektion Terra zu mindestens 20% aus recyceltem Material bestehen („Prä-Verbraucher“-Abfälle).

FAP - ЭТО MADE IN ITALY

Вся керамическая плитка от компании Fap ceramiche производится в Италии. Тот, кто выбирает плитку Fap, может быть уверен, что при её изготовлении применяются природоохранные технологии и используется высококачественное и надежное сырье при обеспечении наилучших условий труда.

Компания Fap ceramiche присоединяется к Этическому Кодексу Confindustria Ceramica (Объединение предпринимателей керамической промышленности), согласно которому предприятия обязаны четко указывать происхождение собственной продукции. Марка Ceramics of Italy может быть использована исключительно на товарах, произведенных в Италии.

Компания Fap ceramiche является членом U.S. Green Building Council, американской организации, деятельность которой направлена на внедрение и широкое распространение культуры экологического строительства.

Продукция компании Fap прошла проверку независимой организации, в результате чего получила сертификат ENVIRONMENTAL PRODUCT DECLARATION (EPD). EPD – это своего рода паспорт продукции, где приводятся данные о влиянии производства на окружающую среду начиная с добычи сырья и заканчивая реализацией продукции. В документе приводится описание полного цикла жизни товаров вплоть до их утилизации.

Fap ceramiche стала одной из первых компаний в керамическом секторе, получившей сертификат PRODUCT ENVIRONMENTAL FOOTPRINT (PEF). PEF оценивает по стандартам EC воздействие производства на окружающую среду. Сертификат PEF был выдан Fap ceramiche независимой организацией.

Независимая организация DNV-GL засвидетельствовала, что вся произведенная из белой массы плитка Fap и плитка Antracite, Caffè Cotto и Malta из керамогранита коллекции Terra содержит более 20% вторсырья, не дошедшего до потребителя.

Posa, stuccatura e pulizia

Pasta bianca

PREMESSA IMPORTANTE: PER POSA E STUCCATURA RIVOLGERSI A POSATORI PROFESSIONISTI.

Posa

Una corretta posa in opera, seguendo alcune semplici regole, garantirà un perfetto risultato finale:

- 1) controllare la planarità delle pareti da rivestire;
- 2) posare il prodotto miscelando il materiale prelevato da più scatole;
- 3) maneggiare con cura il prodotto prima e durante la posa;
- 4) Fap ceramica consiglia di utilizzare esclusivamente adesivi di classe C2 secondo la normativa europea EN 12004. Utilizzare collanti bianchi per rivestimenti ceramici antiscivolo. Per un risultato ottimale aggiungere un elasticizzante avendo cura di seguire scrupolosamente le indicazioni del produttore, occorre applicare uno strato omogeneo del collante sul sottofondo. Lo spessore del collante può essere regolato utilizzando il lato dentato del frattazzo.

IMPORTANTE:

I rivestimenti rettificati di Fap sono stati progettati e realizzati per consentire la posa accostata (senza fuga) delle piastrelle. Ciò consente di ottenere il miglior risultato estetico (pareti unite) e funzionale (non trattiene lo sporco perché non ci sono fughe).

Stuccatura

Utilizzare stucchi in tinta.

Pulizia

Utilizzare strumenti per la pulizia perfettamente puliti. Sciacquare sempre le superfici. Per lavaggi frequenti utilizzare semplicemente acqua pulita.

Gres porcellanato

PREMESSA IMPORTANTE: PER POSA E STUCCATURA RIVOLGERSI A POSATORI PROFESSIONISTI.

Posa

Una corretta posa in opera, seguendo alcune semplici regole, garantirà un perfetto risultato finale:

- 1) controllare la planarità del massetto su cui posare le piastrelle da pavimento;
- 2) posare il prodotto miscelando il materiale prelevato da più scatole;
- 3) maneggiare con cura il prodotto prima e durante la posa;

IMPORTANTE:

I pavimenti rettificati di Fap devono essere posati con una fuga di 2-3 mm. Per la posa in esterno si consiglia una fuga di 3 mm.

Per pavimenti posati a correre, sfasatura massima di 1/3 fra le doghe. Gli esagoni devono essere posati con una fuga da 3 a 5 mm.

Stuccatura

Utilizzare stucchi in tinta.

Pulizia

Le regole per la pulizia a cura del posatore devono essere applicate quando vengono utilizzati stucchi cementizi. Quando si usano stucchi epossidici, ci si deve attenere alle indicazioni dei produttori.

Pulizia a cura del posatore.

1 Prima pulizia: quando, dopo 10-20 minuti dalla stuccatura lo stucco perde plasticità e diventa opaco si proceda alla rimozione dell'eccesso di sigillante con una spugna umida e pulita. Si deve poi effettuare una pulizia a secco con un panno asciutto o con un fazzoletto.

2 Pulizia finale: dopo 36/48 ore sia piastrelle che fughe hanno completato la loro stagionatura, si deve procedere al lavaggio della superficie con un acido ad azione tamponata. Si deve poi risciacquare con abbondante acqua pulita, da rimuovere con una aspiraliquidi.

IMPORTANTISSIMO: è fondamentale che la pulizia a cura del posatore sia effettuata a regola d'arte affinché il pavimento risulti di facile manutenzione. La cura con la quale si eseguono la prima pulizia e la pulizia finale (in particolare l'asportazione totale degli stucchi residui) influenzano la pulibilità del pavimento. Tale procedura è prevista dai migliori produttori di stuccature per fughe e collanti, per tutti i pavimenti in gres porcellanato. Non rispettare queste raccomandazioni, o utilizzare acqua non perfettamente pulita, può determinare il fissaggio di una patina di stucco o di polvere di cantiere estremamente assorbente, non perfettamente visibile ad occhio nudo, che cattura la polvere esistente nell'ambiente e può rendere il pavimento perennemente sporco. In questo caso Fap ceramica declina ogni responsabilità.

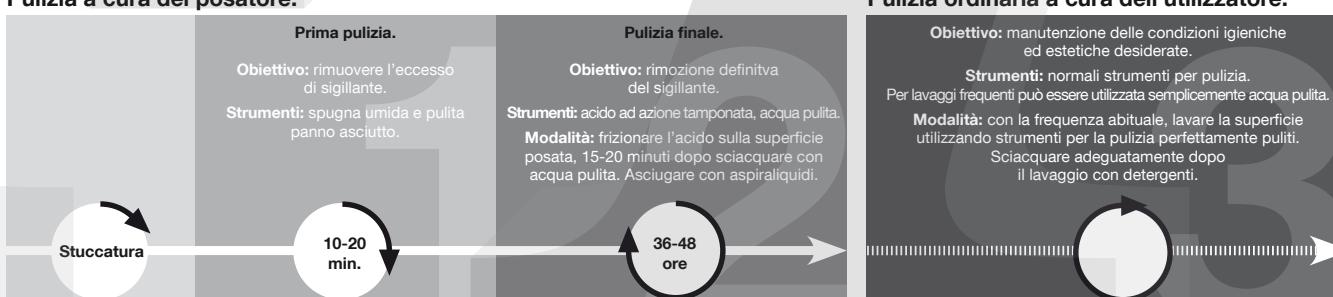

Pulizia ordinaria.

3 Frequenza: come d'abitudine.

Avvertenze:

a] utilizzare strumenti per la pulizia perfettamente puliti; b] sciacquare sempre il pavimento; c] non calpestare il pavimento bagnato;
d] per lavaggi frequenti può essere utilizzata semplicemente acqua pulita o prodotti detergenti specifici per rimuovere sporco e macchie purché non siano cerantici, filmanti o pellicolanti. Sconsigliamo l'utilizzo di prodotti con l'indicazione "non occorre il risciacquo".

Pulizia a cura del posatore.

Advice on laying, grouting and maintenance

White body

IMPORTANT NOTE: TILES SHOULD BE LAID AND GROUTED ONLY BY PROFESSIONAL TILE LAYERS.

Tiling

Follow the simple rules below to guarantee perfect tiling results:

- 1) Check the walls that are going to be tiled are flat;
- 2) Mix the tiles during tiling by taking them from several boxes
- 3) Handle the tiles with care before and during tiling.
- 4) For installing its wall tiles, Fap ceramica recommends the use of class C2 adhesives, in compliance with the European standard EN 12004. Specifically recommended is a white glue for non-slip ceramic covering materials. For top-class results, add an elasticator, taking care to follow the manufacturer's instructions to the letter, and apply an even layer of glue on the underside of the tile. The thickness of the glue can be adjusted using the toothed side of the trowel.

IMPORTANT:

Fap rectified wall tiles are designed and manufactured so that joint free (seamless) tiling is possible. This gives the best final appearance (seamless walls) and performance (the tiles do not collect dirt because there are no gaps).

Grouting

Use matching grouts.

Cleaning

Use cleaning tools that are perfectly clean themselves. Always rinse off surfaces. Use clean water alone if the surface is washed frequently.

Porcelain stoneware

IMPORTANT NOTE: TILES SHOULD BE LAID AND GROUTED ONLY BY PROFESSIONAL TILE LAYERS.

Tiling

Follow the simple rules below to guarantee perfect tiling results:

- 1) Check the floor slab is flat where the tiles are to be fitted;
- 2) Mix the tiles during tiling by taking them from several boxes
- 3) Handle the tiles with care before and during tiling.

IMPORTANT:

Fap rectified floor tiles must be laid with a 2-3 mm gap between them. For the laying outdoors we recommend a gap of 3 mm. For floors with a lengthwise tiling layout, maximum 1/3 offset between panels. The hexagons will have to be laid with a 3 to 5 mm gap between tiles.

Grouting

Use matching grouts.

Cleaning

When cement-based grouts are used, the tiler should follow the instructions for cleaning. Follow the manufacturer's instructions if epoxy grouts are used.

Cleaning to be performed by the tile layer:

1 Initial cleaning: about 10-20 minutes after grouting, grout will lose its plasticity and become opaque: any excess sealant should then be removed using a clean, damp sponge. The tiles must then be wiped clean using a dry cloth or felt.

2 Final cleaning: after 36/48 hours both the tiles and the joints will have dried completely: the surface must then be washed using a buffered acid solution. The tiles must then be rinsed using plenty of clean water, which must then be removed using a liquid vacuum.

EXTREMELY IMPORTANT: it is essential that the tile layer cleans the tiles exactly as prescribed so that the flooring will subsequently be easy to clean. The care taken with both the initial and final cleaning processes (in particular the complete removal of grout residuals) will affect the subsequent ease of maintenance of the flooring. The best manufacturers of joint-grouts and adhesives recommend this procedure for all flooring in porcelain stoneware. If these recommendations are not observed or if water is used which is not perfectly clean, it could lead to the formation of a hardly perceptible film of grout or building site dust which is extremely absorbent and captures any dust in the atmosphere and can make the floor look eternally dirty. In this case Fap ceramica declines any responsibility.

Ordinary cleaning:

3 Frequency: as usual.
Recommendations:

a] always use cleaning tools which are perfectly clean; b] always rinse the floor; c] do not walk on the floor when wet;
d] clean water without detergent may be used for frequent washing or specific detergents to remove dirt of stains that are not waxen or filmy. We advise not to use detergents with the indication "it is not necessary to rinse after use".

Cleaning to be carried out by the tile layer.

Ordinary cleaning to be carried out by the user.

Aim: maintenance of the desired hygienic and aesthetic conditions.
Tools: usual cleaning apparatus.
For frequent cleaning it is possible to use clean water alone.
Method: Wash the surface at the usual intervals using cleaning apparatus which are perfectly clean. Rinse thoroughly after washing with detergents.
