BLOCK 2.0

MUCH MORE THAN BEAUTIFUL MUCH MORE THAN STRONG

La ricerca di Kronos guarda al passato e alla tradizione per presentare un nuovo prodotto estremamente resistente e duraturo, senza rinunciare alla componente estetica.

Con la consueta cura per il materiale e attenzione al dettaglio, Kronos ha realizzato Block 2.0 in 2 formati: 20,2x20,2 e 20,2x30,4 in 2 cm di spessore con bordo vintage.

I colori proposti sono 6 in 4 differenti materie: effetto pietra, ardesia, cotto e porfido.

Search for Kronos looks to the past and to tradition, to present a new product, extremely resistant and durable without sacrificing aesthetic component.

With the usual care for the material, and attention to detail, Kronos has made Block 2.0 in 2 sizes 8"x8" and 8"x12", 3/4" thick. The looks of the edges are Vintage effect.

La recherche de Kronos s'oriente vers le passé et vers la tradition afin de présenter un nouveau produit extrêmement résistant et durable, sans pour autant renoncer à la composante esthétique. Avec le soin habituel porté au matériau et l'attention constante prêtée au détail, Kronos a réalisé Block 2.0 dans 2 formats : 20,2x20,2 et 20,2x30,4 dans 2 cm d'épaisseur avec un bord vintage. Les couleurs proposées sont 6 et se déclinent dans 4 matières différentes : effet pierre, ardoise, terre cuite et porphyre.

Die Forschung von Kronos blickt auf die Vergangenheit und Tradition zurück, um ein extrem widerstandsfähiges und haltbares Produkt zu präsentieren, ohne die ästhetischen Aspekte außer Acht zu lassen. Mit der üblichen Sorgfalt für das Material und die Details hat Kronos Block 2.0 in 2 Formaten gefertigt: 20,2x20,2 und 20,2x30,4 in 2 cm Stärke mit Vintage-Rand.

Die angebotenen Farben sind 6 bei verschiedenen 4 Materialien: Stein-, Schiefer-, Cotto und Porphyroptik.

BLOCK 2.0

Lo spessore maggiorato di 20 mm e il piccolo formato permettono di aumentare la resistenza al rotolamento e contrastare i movimenti e le spinte create dalle ruote, rendendo il pavimento resistente e duraturo.

The 20 mm increased thickness and the small size makes it possible to increase rolling resistance and contrast the movements and thrust created by wheels, making the paving more resistant and longer lasting.

Il piccolo formato agevola la creazione di curve.
The small size makes it easier to create curves.

*La posa contraria al senso di marcia, aumenta la portata al carico.
*Laying the tiles in the opposite direction to traffic increases the load-bearing capacity.

BLOCK 2.0

**BORDURA
EDGE**

Block permette di creare bordure per delimitare vialetti.
La bordura è un elemento molto importante perché funge da controllo strutturale ed impedisce al vialetto di espandersi sotto il proprio peso.

Block makes it possible to create edges to delimit paths and driveways.
These edges are very important because they offer structural control and prevent the driveway from expanding under its own weight.
