1

colore
White

L'espressione
pura del colore.

*1 colour: Colour in its purest expression.
1 couleur: L'expression la plus pure de la couleur.
1 Farbe: Der reinste Ausdruck von Farbe.
1 color: La expresión más pura del color.
1 цвет: Самое чистое выражение цвета.*

2

superfici

Satinata
Lux

Ad ogni ambiente il
tono più congeniale.

*2 surfaces: Satin, Lux
The most congenial shade for every interior.
2 surfaces: Satinée, Lux
Le ton qui convient le mieux à chaque ambiance.
2 Oberflächen: Seidenmatt, Lux
Die passende Farbe für jedes Ambiente.
2 superficies: Satinada, Lux
A cada espacio el tono más idóneo.
2 поверхности: Сатиновая, Lux
Каждому интерьеру его собственный тон.*

25x76

Regolarità, respiro e senso
dinamico per le pareti.

*Regularity, breadth and a dynamic "feel" for walls.
Sur les murs, le rythme du souffle et du mouvement.
Rhythmus, Weite und Dynamik für die Wände.
Regularidad, amplitud y sentido dinámico en las paredes.
Однородность, свободное дыхание и ощущение
динамичности стен.*

*Vibrazioni di luce.
Vibration of light.
Vibrations de lumière.
Vibrierendes Licht.
Vibraciones de luz.
Эффекты света.*

Con Absolute White l'utilizzo del bianco come elemento di rivestimento entra in una nuova dimensione espressiva. Tre strutture 3D: Twist e Cube, nelle varianti lucida e satinata, e Fiber, solo matt, per modellare la luce, esaltare i colori e restituire dinamiche vibrazioni agli ambienti.

With Absolute White, the use of white in wall coverings gains unprecedented expressive potential. Three 3D structures: Twist and Cube, in the gloss and satin versions, and Fiber, matt only, model the light, enhance colours and generate dynamic vibrations with design schemes.

Avec Absolute White, le blanc, pensé comme élément de revêtement, entre dans une nouvelle dimension expressive. Trois structures 3D : Twist et Cube, dans les variantes brillante et satinée, et Fiber, mate uniquement, pour modeler la lumière et redonner au espaces des vibrations dynamiques.

Mit Absolute White eröffnet sich der Farbe Weiß als Gestaltungselement von Wänden eine völlig neue Dimension. Drei 3D-Reliefs: Twist und Cube in glänzender und seidenmatter Oberfläche und Fiber in seidenmatter Oberfläche modellieren das Licht, betonen die Farben und erfüllen die Räume mit positiver Energie.

Con Absolute White la utilización del blanco como elemento de revestimiento entra en una nueva dimensión expresiva. Tres estructuras tridimensionales: Twist y Cube, en las variantes brillante y satinada, y Fiber, solo mate, para modelar la luz, dar realce a los colores y transmitir vibraciones dinámicas a los ámbitos.

Благодаря Absolute White использование белого цвета как элемента облицовки становится новым средством выражения. Три объемные фактуры: Twist и Cube в полированном и сатинированном варианте и Fiber, только с матовой отделкой, для моделирования света, усиления цветов и придания интерьерам динамичных эффектов.

(bakery)

La struttura Cube satinata trasforma l'energia della luce e fa da sfondo ideale per una percezione più intensa di colori, aromi e sapori.

The satin Cube structured tile transforms the energy of light and provides the ideal backdrop for experiencing colours, aromas and flavours more intensely.

Sur l'écrin parfait de la structure Cube satinée l'énergie de la lumière se transforme et intensifie la perception des couleurs, des arômes et des saveurs.

Das seidenmatte Relief Cube erzeugt interessante Lichteffekte und dient als idealer Untergrund für die verstärkte Wahrnehmung von Farben, Düften und Aromen.

Сатинированная фактура Cube превращает энергию света и является идеальным фоном для самого интенсивного восприятия цветов, ароматов и вкусов.

La estructura Cube satinada transforma la energía de la luz y brinda el fondo ideal para suscitar una percepción más intensa de los colores, los aromas y los sabores.

(quality and environment)

Qualità per Marazzi significa qualità di prodotto, di processo e sostenibilità ambientale, attenzioni che hanno permesso all'azienda di certificare i propri sistemi e i propri prodotti.

La qualità ecologica dell'intero ciclo industriale parte dalle materie prime estratte da cave che operano nel rispetto delle direttive ambientali per la tutela dell'habitat.

Durante il processo di produzione Marazzi adotta sistemi di raccolta e riutilizzo degli scarti e delle acque di lavorazione, limitando così il consumo di risorse naturali.

Le emissioni in atmosfera di tutte le fasi vengono controllate con idonei sistemi di abbattimento, non sono presenti scarichi di acque industriali e, grazie al recupero del calore e all'autoproduzione di energia, i consumi energetici risultano ottimizzati.

Infine i rifiuti prodotti vengono raccolti e inviati al recupero presso aziende autorizzate.

Marazzi, al fianco di ingegneri e architetti, progetta e realizza sistemi in ceramica innovativi in grado di migliorare la qualità della vita delle persone e il loro rapporto con l'ambiente che le circonda.

For Marazzi, quality means quality of product, process and environmental sustainability, priorities that have enabled the firm to certify its systems and products.

The environmental quality of the entire industrial cycle starts from the raw materials, taken from quarries that operate in accordance with environmental directives on habitat protection. During the production process, Marazzi uses systems that collect and reuse waste and processing water to limit the consumption of natural resources.

Atmospheric emissions from all phases are controlled by means of suitable scrubbing systems, no industrial effluents are discharged, and heat recovery and in-house energy generation optimise energy consumption. Last but not least, the waste produced is collected and sent for recovery by authorised firms. Marazzi works with engineers and architects on the design and realisation of innovative ceramic systems capable of improving people's quality of life and their relations with their surrounding environment.

Le mot « Qualité » pour Marazzi signifie qualité de produit, qualité de processus et durabilité environnementale, autant de caractéristiques qui ont permis à la société de certifier ses systèmes et ses produits.

The environmental quality of the entire industrial cycle starts from the raw materials, taken from quarries that operate in accordance with environmental directives on habitat protection. During the production process, Marazzi uses systems that collect and reuse waste and processing water to limit the consumption of natural resources.
