MYSTONE PIETRA LIGURE

Mystone Pietra Ligure

Mystone Pietra Ligure represents a major step forward in technology and style within the Marazzi Mystone collection of stone-look porcelain stoneware. The concept focuses entirely on slate from Italy's Liguria region, replicated with realism of colour and substance thanks to use in the production process of the 3D Ink technology, which ensures perfect matching between the patterning and structure of every single piece. The colour range comprises 4 shades – Bianco, Beige, Antracite and Cenere – running from grey to green, white and brown and all reflecting natural, earthy hues, in 120x120, 75x150, 60x120, 75x75 and 60x60 sizes. Mystone Pietra Ligure has particularly deep patterning and is specifically designed for covering locations which extend seamlessly between indoor and outdoor areas, thanks to the inclusion of R9, R10 and R11 surfaces. The Preinciso listel tile in size 14x120, available in all colours in the collection and intended for installation on both floors and walls, has a structured pattern that adds variety to the surface and is ideal for creating design schemes with a contemporary look. The availability of the 60x120 and 60x60 sizes in 20 mm thick version extends the product's installation horizons in both residential and commercial locations.
