BEST CHOICE.

Esattamente come accade per le pietre naturali, Extra è una selezione di marmi in gres porcellanato che estrae il meglio dalla tecnologia industriale; a partire dalle materie prime che rendono i fondi più chiari e luminosi fino ai pigmenti colorati che riflettono grafiche profonde, sempre più autentiche e naturali.

Just like natural stone, Extra is a selection of porcelain stoneware marbles that extracts the best from industrial technology: from the raw materials that make the backgrounds lighter and brighter to the colourful pigments featuring deep, authentic and natural graphic effects.

Tout comme les pierres naturelles, Extra est une sélection de marbres en grès cérame, qui révèle les prodiges de la technologie industrielle, des matières premières qui donnent des fonds plus clairs et plus éclatants, aux pigments colorés faisant émerger des motifs en profondeur, pour un rendu de plus en plus authentique et naturel.

Genau wie bei den Feinsteinzeugkollektionen mit Natursteinoptik, bietet Extra ein exklusives Sortiment an Marmorinterpretationen, die das Nonplusultra industrieller Fertigungstechnologien in sich vereinen; angefangen bei den Rohstoffen für noch heller leuchtende Grundfliesen, bis hin zu den Farbpigmenten für tiefgründige und immer authentischere graphische Effekte.
